

Your thesis, a chance to get paid

Writing a thesis? Make sure to cooperate with businesses to get a glimpse and make contacts within your future working field. Triple Steelix will give you a scholarship of 10 000 kr if you do your thesis of 15 credits with smaller company in the steel and workshop branch with the accompanying service industry in Bergslagen.

Triple Steelix is supporting the small companies that would otherwise not have the means to provide for someone doing their thesis with them. This facilitates the smaller companies ability to make with the students that have the valid education needed for working with the company.

Contact Triple Steelix, Lena Norrström before starting your thesis, in order to find out if you are eligible for the scholarship.

Rules for receiving a scholarship:

Thesis must be done with a small company in the steel and workshop branch with the accompanying service industry in Bergslagen.

If the company is paying for the thesis no payment will be received.

The money will be paid as a scholarship after Triple Steelix considers you eligible.

Current financial conditions for the thesis:

- Scholarship of 10.000 kr for a thesis equal to 15 credits.
- You can study anywhere, nationally and internationally but the company where the thesis is done must be located in within the Bergslagen region.

To obtain reimbursement the following requirements are met:

- The company/client of the thesis must have approved it
- A supervisor from the university must approve of the thesis
- Thesis must be delivered to Triple Steelix with signatures from the manager of the company and supervisor at the university.
- Personal details attached with the thesis: social security number, address, bank account number and e-mail address.

Decision of approval of that the thesis has been completed according to the set requirements will be received within 30 days from that Triple Steelix of application reception. When approved, the scholarship will be paid within two weeks.
